DETAILED ACTION

Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claims 3, 6, 8, 10, 13, 27, 29, 31, 33, 36, 50, 52, 54, 56, and 59 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 3, 6, 8, 10, 13, 27, 29, 31, 33, 36, 50, 52, 54, 56, and 59, the claimed limitation "customizing the features of the content based on prestored profile information indicating the capabilities and functions of said second terminal" render the claim indefinite. When storing content, the content will be stored based upon the second terminal user's prestored profile or the content will be stored based upon the second terminal capabilities and function. The examiner will interpret as the content will be stored based upon the second terminal capabilities and function and examined as such.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

Art Unit: 2685

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-14, 25-37, 48-61 are rejected under 35 U.S.C. 102(e) as being anticipated by Tagawa et al. (EP1081616).

As per claims 1, 25, 48, and 61, Tagawa et al. disclosed a superdistribution in a telecommunications network having a plurality of terminals, for permitting a first user of a first terminal to distribute contents stored in said first terminal to a second user of a second terminal to permit said second user to inspect and purchase said content if desired, said superdistribution method comprising the steps of: transmitting said content from said first terminal to said second terminal; receiving said content in said second terminal; temporarily storing said content in said second terminal in a manner to permit said content to be inspected by said second user; permitting said second user to inspect said content; permitting said second user to purchase said content if desired and automatically discarding said content if not desired; and permanently storing said content in said second terminal when purchased by said second user (abstract, [0038-0041], [158-159])

As per claims 2, 26, 49, Tagawa et al. disclosed the claimed invention ([0038]).

As per claims 3, 6, 8, 10, 13, 27, 29, 31, 33, 36, 50, 52, 54, 56, and 59, Tagawa et al. does not explicitly disclosed such the content will be stored based upon the second terminal capabilities and function ([0038-0041], [158-159], where it is clear the

Art Unit: 2685

content can be customized to stored based upon the remaining space in the memory card).

As per claim 4, Tagawa et al. disclosed the claimed invention ([0038-0041], [158-159]).

As per claims 5, 28, and 51, Tagawa et al. disclosed the claimed invention ([0038-0041], [158-159]).

As per claims 7, 30, and 53, Tagawa et al. disclosed the claimed invention ([0038-0041], [158-159]).

As per claims 9, 32, and 55, Tagawa et al. disclosed the claimed invention ([0038-0041], [158-159]).

As per claims 11, 34, and 57, Tagawa et al. disclosed the claimed invention ([0038-0041], [158-159]).

As per claims 12, 35, and 58, Tagawa et al. disclosed the claimed invention ([0038-0041], [158-159]).

As per claims 14, 37, and 60, Tagawa et al. disclosed the claimed invention ([0038-0041], [158-159]).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sehr (2001/0018660), Yasukawa et al. (5,999,622), and Auerbach et al. (5,673,316) disclose distribution of data in a radiotelephone communication system.

Art Unit: 2685
